EnergyWindow[®] Announces Significant Milestones: 5 Billion Kilowatt Hours Of Electricity Purchased Via Its Online Energy Procurement System

EnergyWindow also announces the number of transactions completed via its energy procurement system has doubled; close to 100 Fortune 1000 customers on company roster

BOULDER, Colo., June 5, 2006 – EnergyWindow, Inc., a supplier of technology tools and consulting designed for purchasing and managing the energy supply used by businesses, today announced it has successfully closed requests for quotation on more than five billion kilowatt hours (kWh) of electricity and 6 billion cubic feet (bcf) of natural gas supply via its PowerQuote™ online energy procurement system. EnergyWindow[®] again doubled the volume of transactions occurring via its energy procurement system, with more than 7,000 requests for quotation successfully closed. In addition, EnergyWindow now serves more than 80 large national customers, almost half of which are Fortune 1000 companies.

By helping its customers buy gas and electricity at more competitive prices via its online energy sourcing tool, EnergyWindow has saved its customers in excess of \$87 million on approximately \$500 million in energy supply costs.

“With cumulative savings for our customers totaling \$87 million, it’s no wonder that more and more companies are turning to our technology and superior service to mitigate skyrocketing energy costs,” said Chris Wiederspahn, vice president of market analysis for EnergyWindow, Inc. “Our single-minded focus on our customers has proven to be of tremendous value to them in terms of cost avoidance and risk management – as illustrated by our industry-best savings-to-spend ratios. Our growth is proportional to the trust our customers have placed in us, and to the demonstrated effectiveness of our tools and staff of experts.”

About EnergyWindow

EnergyWindow is a Boulder, Colo.-based company that offers a comprehensive suite of information-technology-based tools and energy industry expertise to help businesses manage every aspect of their energy supply cycle (natural gas and electricity). EnergyWindow offers four key areas of products and services: 1) An online energy sourcing tool for energy procurement; 2) a real-time, online energy market database; 3) an energy management information system that tracks and analyzes a company's energy usage; and 4) energy supply strategy and management consulting. The company was founded in 1999 by Dr. Jack Mason, a long-time energy industry veteran, and Dr. Mike Usrey, a veteran Internet and information technology expert. To date, the company has successfully closed approximately 7,000 transactions for energy purchases, resulting in savings of more than \$87 million on \$500 million in energy supply costs. The company can be reached at: www.energywindow.com, or (303) 444-2366.
